The Fan Challenge

6 Questions

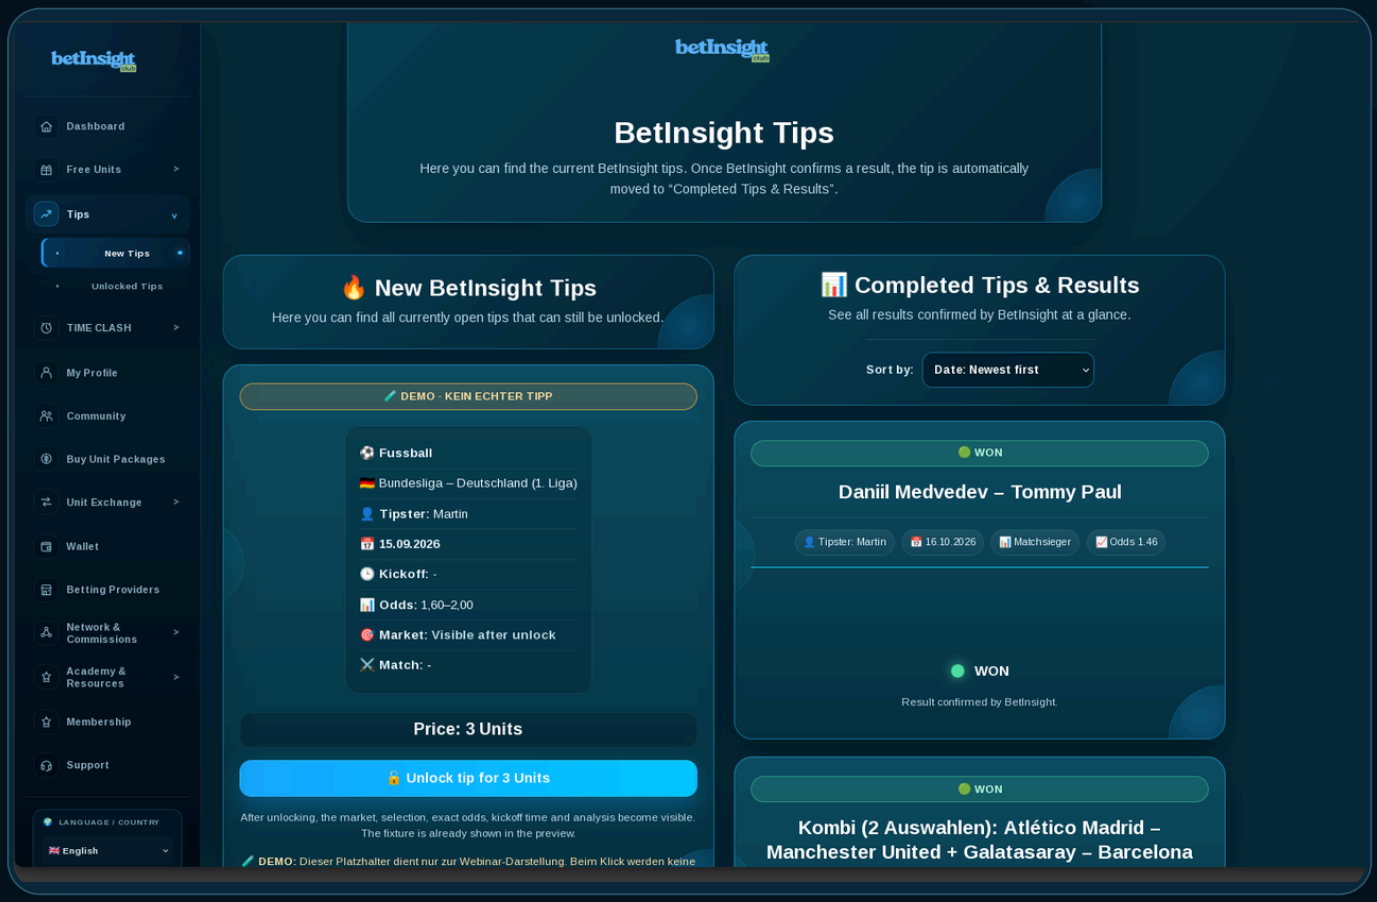

Choose one answer for each question. According to the platform, submitting your picks earlier may earn a higher points multiplier.

Leaderboard

The current challenge shows a prize pool of 500 Free Units and Premium prizes for the top 10. The promotion rules apply.

Discover New Tips

On the Tips page, you can see published expert tips and confirmed results. Some key details of locked tips remain hidden until you unlock them with Units.

Before You Unlock

Check the sport, league, tipster, kickoff time, displayed odds and the number of Units required.

Review Results

Completed tips and their confirmed outcomes appear in a separate section. Past wins do not predict future results.

View Your Unlocked Tips

When you select a tip, BetInsight shows how many Units are required. Once unlocked, the tip appears in your personal list with further details and the analysis.

Simple Process

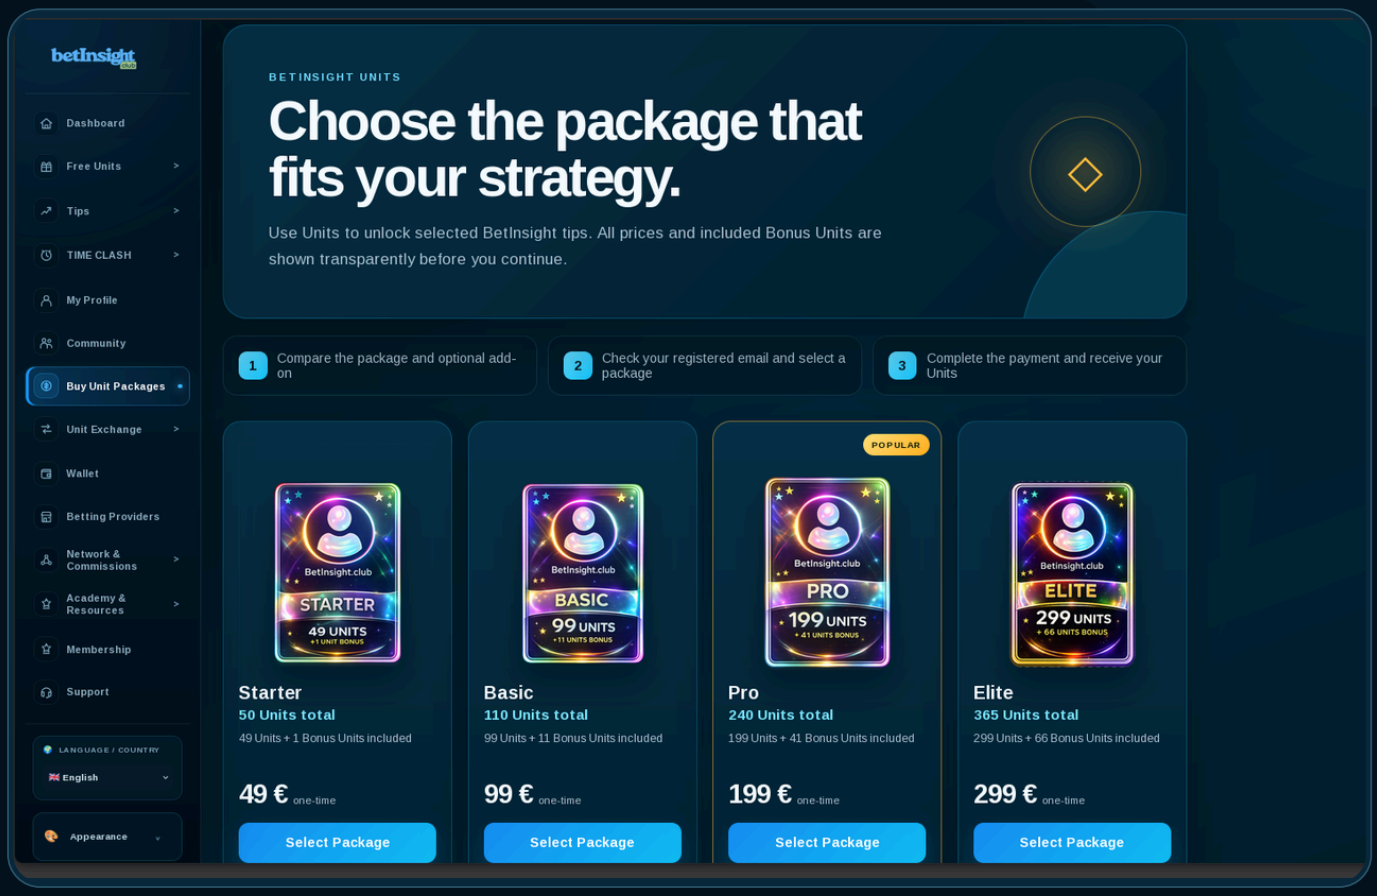

Select a tip → check the Unit price → unlock it → view the full details under Unlocked Tips. The cost varies by tip, for example 1, 2 or 3 Units.

Your Decision

BetInsight provides analyses and information. Whether to place a bet, where to place it and how much to stake is entirely up to you. There is no guarantee of winning.

Units and Packages

Use Units to unlock the analyses you choose. Under Buy Unit Packages, the platform displays several package sizes and any included bonus Units before checkout.

Before Purchasing

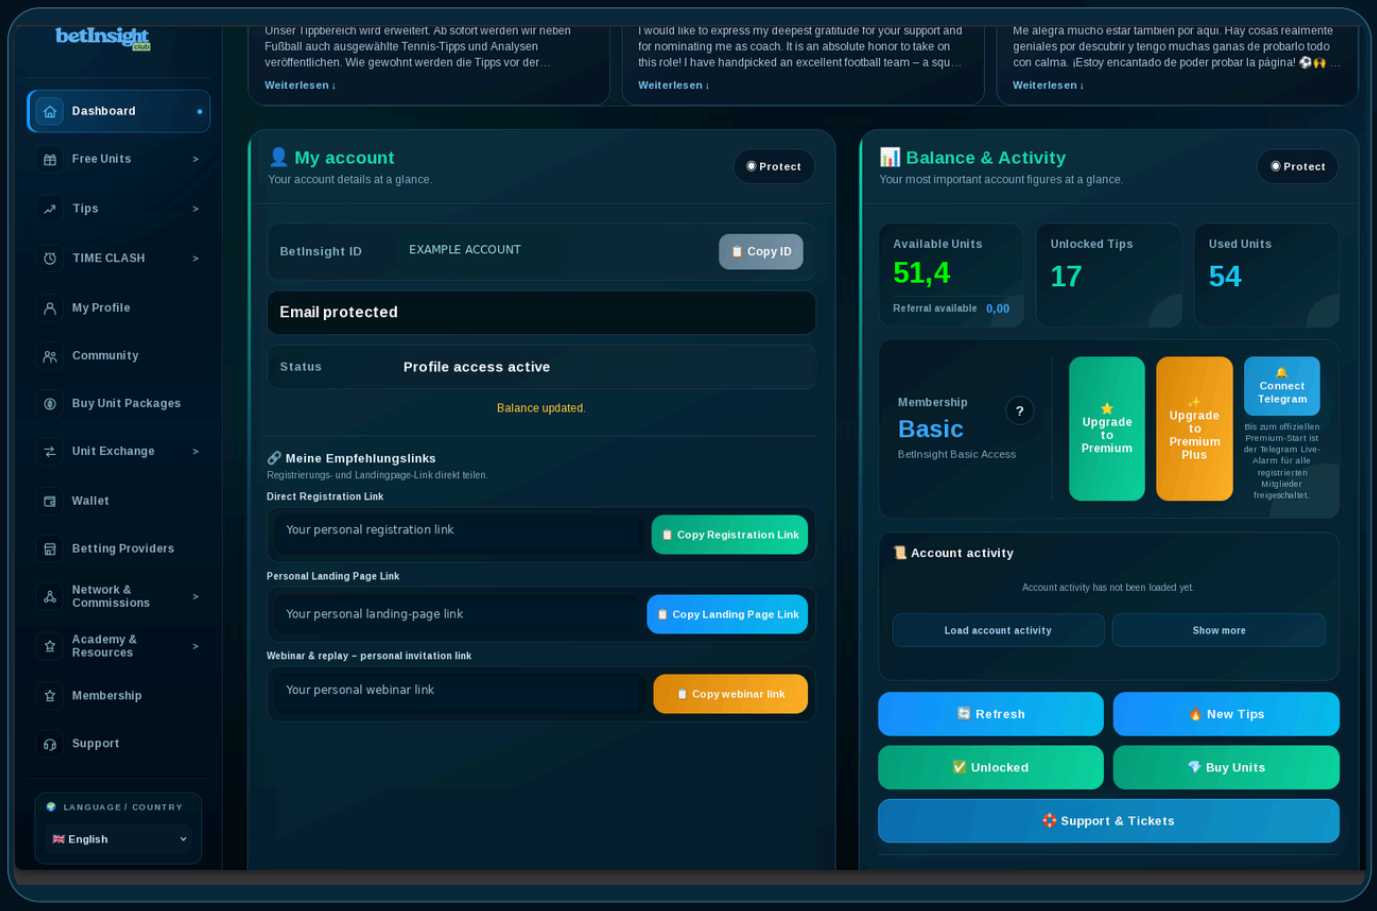

Compare the packages and their included Units, verify your registered email address and only then proceed to payment.

Please Note

Units are digital access rights for platform features. Check terms and costs before buying. BetInsight package purchases use cryptocurrency only. In the member-to-member Unit Exchange, a bank transfer may also be available if offered by a seller.

Profile & Unit Balance

Your profile brings together your account, available Units, unlocked tips, spent Units and membership status. You will also find account activity and helpful shortcuts here.

Data & Security

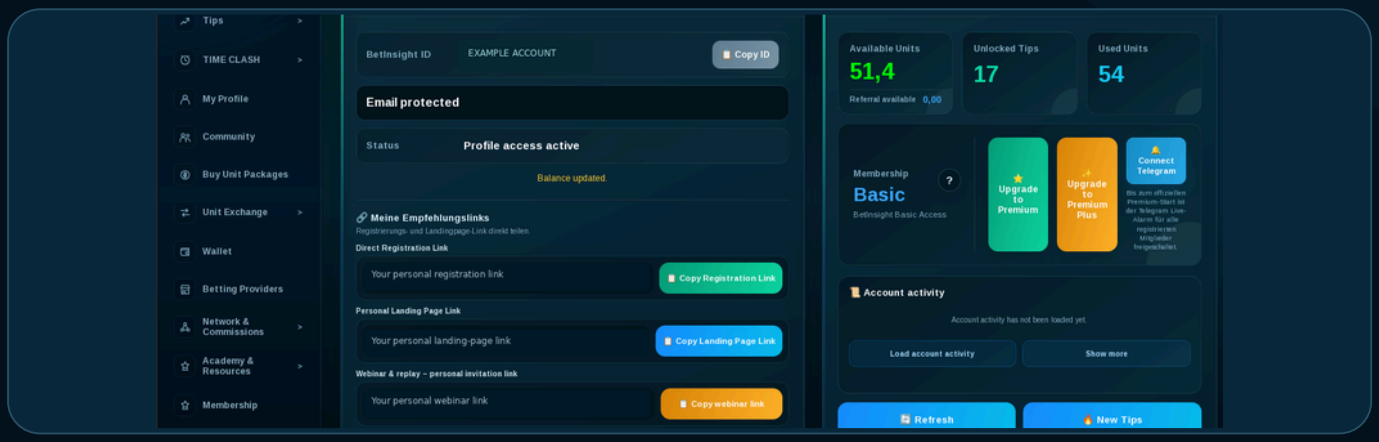

Use your personal profile, keep your login details safe and never share access codes in public groups.

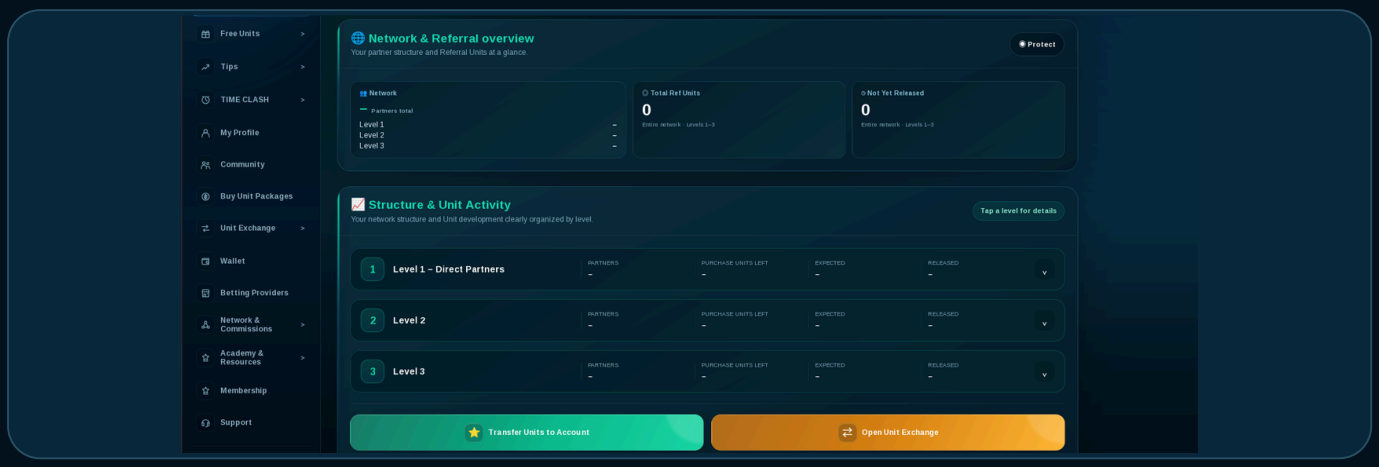

Stay Informed

Check your Unit balances, load your transaction history and open a support request if you have any questions. The displayed values are examples.

Network & Referrals

Simply scroll down on your Dashboard to see your referral network, the Units recorded across its levels and the difference between pending and released Units.

Your Referral Links

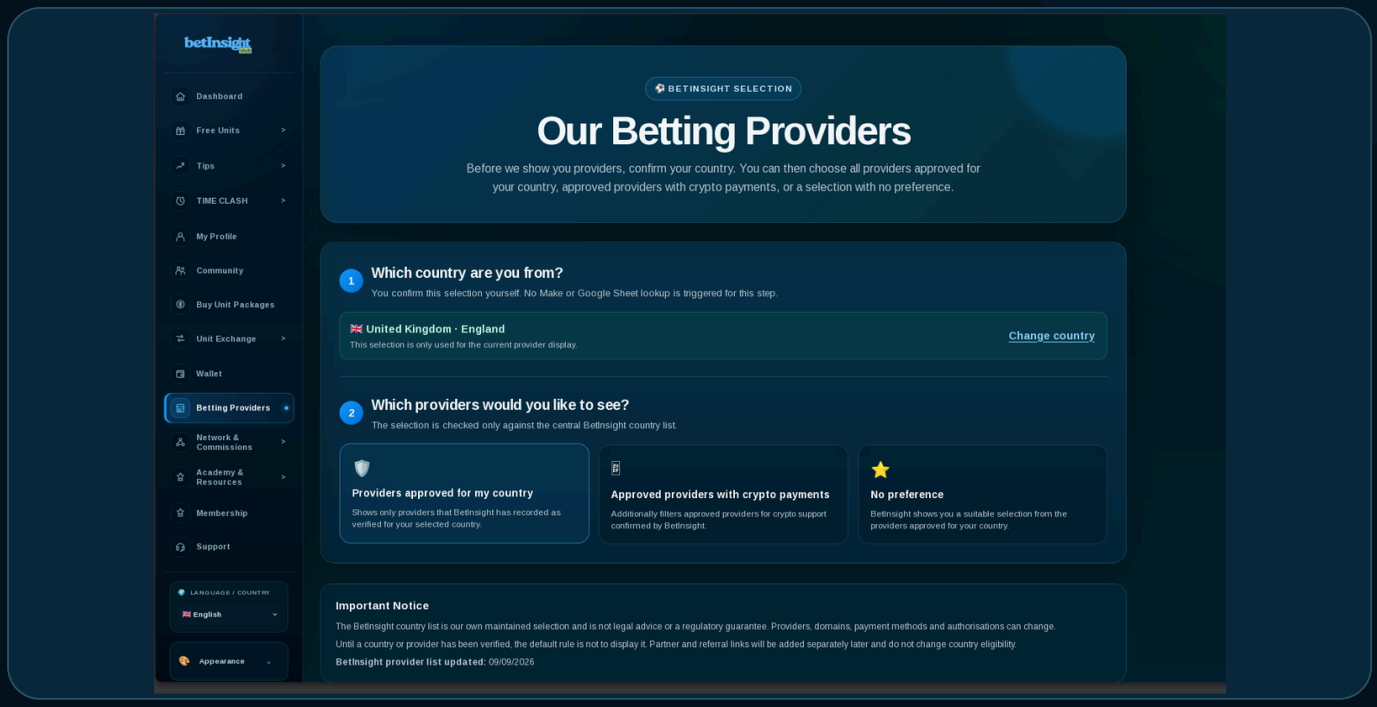

Find your personal registration, landing page and webinar links in your profile. Always share your own referral link.

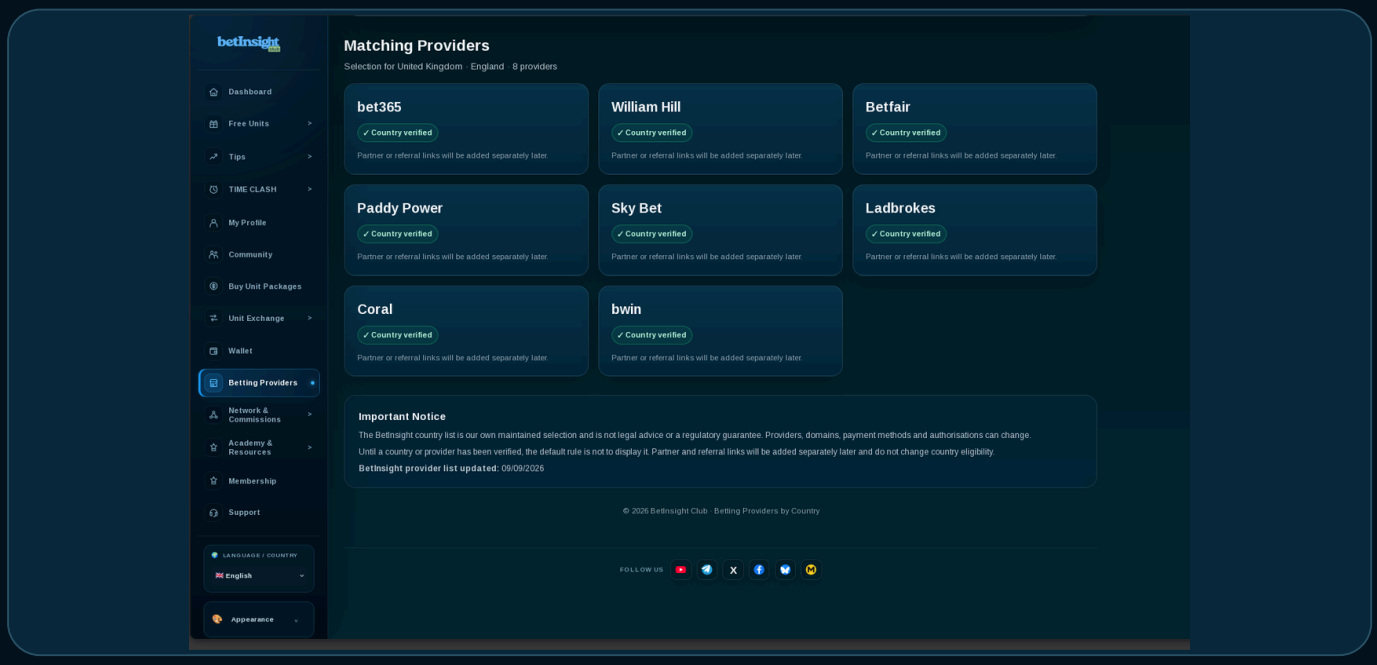

Referral Units

Pending Units are not automatically available for use. Their release depends on actual account activity and the platform rules.

Find Suitable Providers

Select your country, then choose between available providers, approved crypto-payment providers or a selection without a preference. This is a BetInsight selection, not a regulatory guarantee.

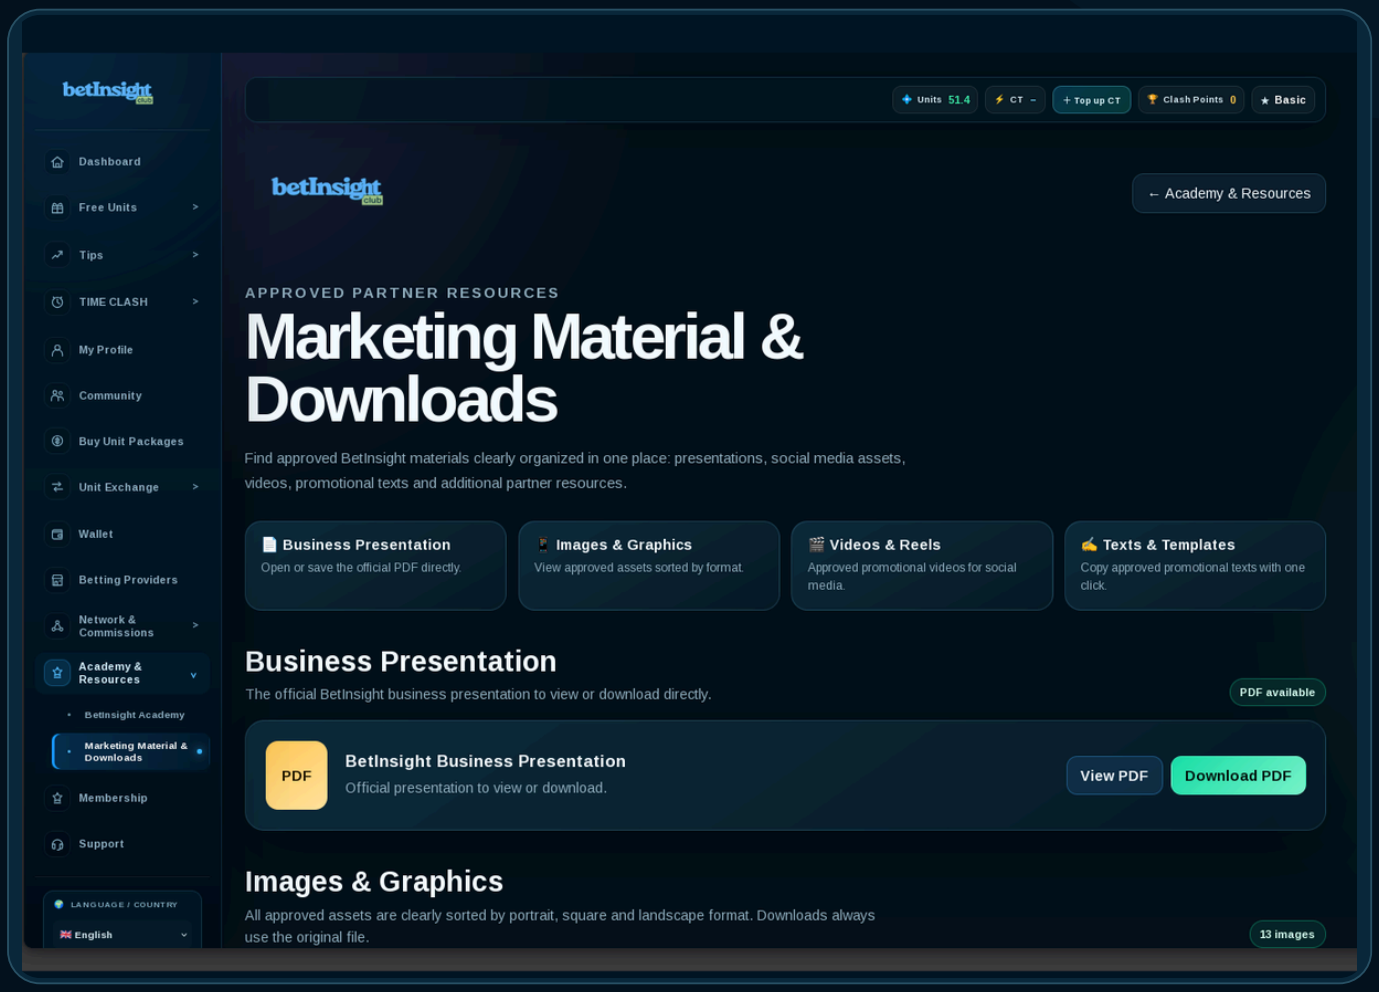

Available providers vary by country. Before registering, always check current licensing and terms applicable where you live.
